Sensory analysis

NF EN 1230−1, December 2009 – Paper and board intended for contact with foodstuffs – Sensory analysis – Part 1: Odour

NF EN 1230−2, December 2009 – Paper and board intended for contact with foodstuffs – Sensory analysis – Part 2: off–flavour

Analysis of the material’s content of a substance

NF EN ISO 15318, February 2000 – Pulps, papers and boards – Determination of 7 specified polychlorinated biphenyls (PCB)

NF EN 12497, Décembre 2005 – Paper and boards intended to come into contact with foodstuffs – Determination of mercury in an aqueous extract

NF EN 12498, Décembre 2005 – Paper and board intended to come into contact with foodstuffs – Determination of cadmium and lead in an aqueous extract

NF EN 1541, August 2001 – Paper and board intended to come into contact with foodstuffs – Determination of formaldehyde in an aqueous extract

NF EN 920, Décembre 2000 – Paper and board intended to come into contact with foodstuffs – Determination of dry matter content in an aqueous extract

NF EN 645, February 1994 – Paper and board intended to come into contact with foodstuffs – Preparation of a cold aqueous extract

NF EN 647, February 1994 – Paper and board intended to come into contact with foodstuffs – Preparation of a hot aqueous extract

NF EN 15519 December 2007 – Paper and board intended to come into contact with foodstuffs – Preparation of an organic solvent extract

Migration analysis

NF EN 646, Auguste 2006 – Papers and board intended to come into contact with foodstuffs – Determination of colour fastness of dyed paper and board

NF EN 648, January 2007 – Paper and board intended to come into contact with foodstuffs –
Papers–Boards

Determination of the fastness of fluorescent whitened paper and board

NF EN 1104, December 2005 – Paper and board intended to come into contact with foodstuffs – Determination of the transfer of antimicrobial constituents

Other types of analysis

XP CEN/TS 14234, March 2003 – Materials and articles in contact with foodstuffs – Polymeric coatings on paper and board – Guide to the selection of conditions and test methods for overall migration

NF EN 13676, February 2001 – Polymer coated paper and board intended to come into contact with foodstuffs – Detection of pinholes
